## Introduction to International Payment Systems

Payments are an inherent part of our daily life. Strong and robust payment systems are a key to financial stability and economic growth.

With continuous evolution and rapid progress, payment industry offers great opportunities. Entry of non-bank players and technology innovations are adding more zing to payments.

It is very important for banks, technology companies, players in payment industry to have knowledge of international payment systems.

Recognizing this need of professionals, MVLCO offers **6 hours** course on basics of **International Payment Systems**.

**Target audience: Professionals working or willing to work in the payment domain**

**When you complete of this course, you will have understanding of:**

- International Payment Systems:
  - Key elements of payment system
  - Entities involved in payment system
  - Different types of payments e.g. domestic and cross border
  - Electronic payments e.g. RTGS, NEFT, ACH
  - Usage of SWIFT messaging and ISO20022
